			3-5	Get Google-Fied!	Mr. Messina	\$155
Tuesday	1/28-3/31	10	K-2	Simply STEAM	Ms. Marinelli	\$195
			K-2	Glitter and Glue	Ms. DiFederico	\$195
			3-5	Coding and Virtual Reality	Mrs. Rizzo	\$170

After School STEAM Club	The opportunity for exploration here is limitless! Each week, focus on a different STEAM activity including Science experiments, Technological advancements, Engineering challenges, Artistic creations, or Math games.
Clay Play	Hands on Clay! Make your own sculptures, animals, creatures, aliens...whatever suits your fancy... using model magic. Once creations are complete and dry, students will paint their sculptures. This class can get messy, smocks from home strongly encouraged!
Coding and Virtual Reality	Bring your chromebook and join us for an hour of coding using websites such as Hour of Code, Scratch, and Tynker. Learn to code simple bots and more! Explore coding and engage in virtual reality to explore how technology broadens our world and builds critical thinking skills all while having fun!
Get Google-Fied!	Join Mathewson's own Google expert, Mr. Messina, as you learn all the ins and outs and cool and useful things you can do with Google. Learn about Google Docs, Slides, Photos, Drawing and More! Students will use their school-issued Chromebook.
Glitter and Glue	Bring your imagination to the art table in this fun filled craft class full of painting, gluing, glitter, duct tape & more! Let your creativity reign as the the only requirement is to have fun while crafting around the table with classmates.
Simply STEAM	In this STEAM class for younger students, explore Science, Technology, Engineering, Art and Math through cool experiments, building challenges, art projects, hands on math and more! A great introduction to how all elements of STEAM work together and improve critical thinking and expand creativity.

General Registration Period is from Noon 1/2 thru 1/20
Late fee applied to registrations received after 1/20
